

Cookies

[ResilienceDirect](#) puts small files (known as 'cookies') on your computer.

These cookies are used across the ResilienceDirect service and are removed at the end of each session or within 60 minutes.

Find out [how to manage cookies](#) from the Information Commissioner's Office.

Essential cookies (strictly necessary)

These are the cookies that enable the dashboard and the ResilienceDirect applications to work and they always need to be on. For example, they are used in the login process and to manage your access between applications and pages.

Essential cookies we use

Cognito authentication

Name	Purpose	Expires
XSRF-TOKEN	Ensures that subsequent requests from the client are actually originating from the user and not a malicious site	End of session
Cognito	Access token that is set after a successful sign-in and allows users to re-enter the application without re-authenticating	60 minutes

RD Collaborate

Name	Purpose	Expires

ASP.NET_SessionId	Passes the session between application pages	End of session
RDExtranet	Passes the authentication between pages for the logged in session	End of session
__RequestVerificationToken	Passes the authentication between pages for the logged in session	End of session

RD Maps and Dashboard

Name	Purpose	Expires
XSRF-TOKEN	Ensures that subsequent requests from the client are actually originating from the user and not a malicious site	End of session
csrf-state-legacy	Passes the authentication between pages for the logged in session	End of session
csrf-state	Passes the authentication between pages for the logged in session	End of session
cognito-fl	Passes the authentication between pages for the logged in session	End of session

Joint Operational Learning (JOL)

Name	Purpose	Expires
ASP.NET_SessionId	Passes the session between application pages	End of session
AuthCookie	Passes the authentication between pages for the logged in session	End of session
UsrTkData	Passes the authentication between pages for the logged in session	End of session

Joint Operational Learning (JOL)

Name	Purpose	Expires
__AntiXsrfToken	Prevention of XSRF/CSRF attacks	End of session

We also use cookies that measure website use

We use Google Analytics cookies to measure how you use the ResilienceDirect service.

Google Analytics cookies are currently only implemented on the home page and RD Maps. These will be extended to other areas of the ResilienceDirect service in future, subject to further review and communication.

These cookies collect information about:

- how you got to ResilienceDirect
- the pages you visit and how long you spend on each page

Google Analytics collects anonymous usage data only. No personal identifiers such as names, email addresses or usernames are stored or shared.

We do not allow Google to use or share this data for their own purposes.

Google Analytics

Name	Purpose	Expires
_ga, Analytics	Analyticx	Two years
ga<container-id>	Analyticx	Two years
